Harley Davidson Check Engine Light Code and Clearing

I have a 08 1200XL sportster, just fired it up this year after the winter storage. I cleaned it all up and took if for a ride and now the check engine light comes on then go off then comes on etc. It rides fine no lost of power and rides smooth. But why the light keeps on coming on and off? Thanks in Advance Wolvie

Check Engine Light | Harley Davidson Forums

When the ECU (engine control unit) detects a problem that it is unable to regulate, it then turns on the check engine light on your dashboard. This check light will either keep on glowing or will blink, depending on the nature of the fault.

How to Reset Your Check Engine Light [5 Simple Methods]

I put about 150 miles on it and then pulled the fairing off to replace the stock mirrors with fairing mounted typeand now the "check engine light" and charging light both light up about a minute after starting the bike. The bike had the stock battery from 2007 in it which I replaced with a new one. Problem still exists.

Engine light and battery light comes on after a short time ...

Push odometer reset button in & hold. Turn ignition switch to ignition and release the odometer reset button. Background lighting should illuminate, speedometer needle should sweep its full range and indicator lamps (battery, security, low fuel, check engine, and cruise) should illuminate. The word "diag" should then appear.

Troubleshoot with Harley Error Codes | Fix My Hog

As the engine powers up, the oil pump pressurizes the engine oil and forces the switch's movable contact away from the fixed contact. This breaks the circuit and turns off the low oil pressure light. The switch requires very little pressure to keep the movable contact in the open position, as evidenced by the 10 pounds of pressure generated by the engine at idle.
