Is Capitalism Racist? | The New Yorker

This book examines how the market economy influenced the way Americans thought about politics and the human potential for reordering social institutions. Capitalism is thus more than a system for producing and distributing goods; it is also an intellectual stimulus to men and women trying to come to terms with the forces for change in their world. By attending to the material circumstances and the ideas those circumstances supported, she argues that economic changes in the 18th century ...

Capitalism and social transitions. The social ramifications of the rise of export economies were vast. The acceleration of the export economies and related commerce fostered a tendency toward urbanization. The period was one of general population growth in much of Latin America, most spectacularly in the temperate, staple-producing zones of South America.
