Size of the Woofer. Do not only consider the size of the subwoofer. You should consider the power, sensitivity rating, and enclosure type. If you would like the system to play loud, low music, and you also have enough space, then choose the biggest subwoofer possible. Do not underestimate the small subwoofer.

**Car Subwoofer Buying Guide: Find the Best Subwoofer for ...**  
Subwoofers are speakers dedicated solely to reproducing low frequencies. No matter what kind of music you like, or how softly or loudly you like to listen, a quality sub can really improve your overall listening experience. Car speakers are small, so they have trouble producing enough low-frequency sound to give your music realism and depth.

**Car Subwoofer Buying Guide: Find the Bass That Fits Your ...**  
Car subwoofers are loudspeakers that reproduce low frequencies that normal speakers aren't usually capable of reproducing. Most car speakers are too small and incapable of properly reproducing low-frequency sounds that add depth and realism to your music.
