I had an AKAI CR80t, which was a receiver with an 8 track player/recorder in it. It was a good sounding unit. It was solidly build, but the volume controls became scratchy. I got rid of it when the left channel failed. I am sure it could have been easily fixed, but I was about 10 at the time, and knew nothing about electronics repair.

Getting a repair kit is well worth the price, especially if you're trying to fix an expensive remote or one that is no longer manufactured. A typical repair kit costs between \$20 and \$30, although you may find smaller kits for less. Repair kits are available online and at some electronics stores.
