Meat the Future - documentary Channel

Everyone will take in vitamin b12 supplements, since that vitamin is now only put in animal feed. Right now there already are products like tooth paste with vitamin b12 available for vegans. The question remains whether we would have enough food for 9 billion people without animal meat being a rich nutrient source. Nature

The Future Of Meat

Because the way I think about this long-term, presumably a firm like Cargill can win the future with alternative "meat" in a way that a cattle rancher can't. So I'm curious what the position is of ranchers on this kind of investment from a firm like Cargill or other firms that are sort of hedging their bets on the future of meat.

The Future of Meat (Ep. 367) - Freakonomics Freakonomics

A Cruelty-Free Future. Using animal cells that regenerate themselves in large steel tanks, Memphis Meats' method of meat production uses 1/10 th the water and 1/100 th the land that's currently used to raise billions of cows, pigs, and chickens each year. The process also produces less waste and cuts energy consumption in half.
