provides a fair and coherent overall picture of how reading is done and how it is best taught. It aims to relate reading to writing systems, analyze the process of reading from several viewpoints using research from diverse disciplines, and develop a model of reading to explain reading processes all the way from letter recognition to reading whole texts.

Reading is a deeply mental experience people engage in on an individual, more than a social, level. A person reads for pleasure, for knowledge, for entertainment, for mentally escaping. But what's the one factor that makes it impossible for some readers to put a book down? Is there even one single reason that is common to every reader?
