Urban Design Guidelines for Gas Stations . 1 . Guideline 3: Design all sides of buildings and pump islands with a consistent architectural style to enhance the streetscape (Figure 4). Figure 4: The detail of this gas station building contributes to an interesting and visually pleasing streetscape.

Urban Design Guidelines for Gas Stations

These guidelines are to be applied throughout the City for development of all gas stations. When gas stations are located in areas identified as Mainstreets, the guidelines for development along Mainstreets also apply. When gas stations are located together with drive-through facilities, the guidelines for drive-through facilities also apply. Where a Community Design Plan or relevant planning study exists, these guidelines will augment those documents.
